FRESH TABLE AVOCADOS · WHOLE FRUIT

SOURCING NATURE'S BEST

An independent sourcing and market-development initiative connecting qualified East African avocado suppliers with Swiss-market opportunities.

HASS FUERTE PINKERTON REED / OTHER SIZE: JUMBO ON REQUEST

Avocados for different buyer needs

Variety and specifications are confirmed for each supplier offer and shipment; this catalogue is a starting point for discussion.

PRIMARY PRODUCT FOCUS

Fresh table avocados

Whole fruit | wholesale, retail and food-service enquiries

Hass

PRIMARY FOCUS

Recognisable pebbled skin and creamy flesh; a primary category to explore for premium fresh markets.

Darkens as it ripens

Fuerte

SUBJECT TO AVAILABILITY

Green-skin, pear-shaped fruit with a smooth-to-slightly textured appearance.

Green skin

Pinkerton

SUBJECT TO AVAILABILITY

Elongated green-skin fruit; a potential alternative depending on market and supply requirements.

Elongated shape

Reed / other varieties

ON REQUEST

Other varieties may be discussed where supplier quality and export documents support them.

Rounder, green skin

"Jumbo" is a size category, not a botanical variety. The actual count / size code is confirmed in the supplier specification.

Hass and Fuerte

The right variety depends on buyer channel, handling needs and supplier-confirmed mature availability.

VARIETY PROFILE

HASS

A versatile benchmark for fresh avocado programmes.

APPEARANCE

Oval-to-pear shape, typically rougher skin; the skin darkens as the fruit ripens.

EATING QUALITY

Creamy texture and rich flavour when correctly mature and ripened.

POTENTIAL CHANNELS

Retail, produce wholesalers, food service and premium fresh-produce programmes.

OFFER TO CONFIRM

Size codes / count per carton, dry matter or maturity standard, grade tolerances, pack format, harvest window and volume.

VARIETY PROFILE

FUERTE

A green-skin option with a classic pear-like profile.

APPEARANCE

Commonly pear-shaped with green skin that generally stays green as it ripens.

EATING QUALITY

Buttery texture and mild flavour when correctly mature.

POTENTIAL CHANNELS

Wholesalers, food service and buyers seeking green-skin varieties.

OFFER TO CONFIRM

Maturity criteria, size range, visual grade, packaging, season, export approvals and transit plan.

All descriptions are general variety guides, not a guarantee of any supplier's specifications.

More choice, with specifications confirmed

Alternative types and size categories are discussed only where supplier quality and export documents support them.

Pinkerton

Longer shape

VERIFY MATURITY + EXPORTABILITY

A longer, narrower fruit profile with green skin. Potentially useful where buyers request alternatives to Hass.

Reed

Rounder shape

ON REQUEST

A more rounded form associated with green skin. Availability for the requested origin and shipment period must be verified.

MEDIUM | LARGE | JUMBO

JUMBO / LARGE-SIZE FRUIT

"Jumbo" is commonly used as a commercial size description in avocado trade. Confirm the actual count / size code, average weight range, size tolerance and buyer acceptance criteria in the supplier specification – **do not treat it as a separate cultivar.**

WHAT A BUYER SHOULD SPECIFY

VARIETY
Hass / Fuerte / Pinkerton / other

SIZE
Requested count or size code

CONDITION
Maturity, skin quality, defects tolerance

PACKING
Carton type, net weight, label / lot code

Two origin countries. One buyer-led process.

Listed regions are research priorities, not a claim that Duopole has secured farms or supply contracts.

KENYA

RESEARCH FOCUS AREAS

Murang'a · Kiambu · Nyeri · Meru · Embu · Other zones

Kenya has recognised export categories including Hass, Fuerte and Pinkerton; maturity and harvest clearances are regulated and season-specific.

VARIETIES TO DISCUSS

Hass

Fuerte

Pinkerton

TANZANIA

RESEARCH FOCUS AREAS

Njombe · Mbeya / Rungwe · Iringa · Songwe · Kilimanjaro / Siha · Other zones

Other regions are considered as supplier evidence allows. Hass, Fuerte and Pinkerton are varieties to discuss with exporters.

VARIETIES TO DISCUSS

Hass

Fuerte

Pinkerton

SEASONALITY IS NOT A FIXED PROMISE

Harvest patterns differ by region, elevation, variety, weather, year and export maturity rules. A current offer specifies the harvest period, mature-fruit availability, packing readiness, route and shipment window.

FROM ORCHARD TO SWISS MARKET

ORCHARD
grower / group

→

PACKHOUSE
sort + grade

→

EXPORT
documents + load

→

SWISS MARKET
buyer / importer

Every step needs a responsible party and the documents required for that specific trade route.

Request a quote with the right details

A clear buyer brief supports a meaningful supplier offer; Duopole can assist under agreed written commission terms.

PRODUCT
Variety, preferred origin and approved alternatives

VOLUME
Trial quantity, regular quantity and forecast

GRADE + SIZE
Count / size code, visual grade and allowed defects

PACKING
Carton net weight, label, pallet and lot marking

TIMING
Target delivery window, receiving days and destination

COMMERCIALS
Target price basis, currency, delivery term, payment

COMPLIANCE
Required certifications, pesticide-residue and traceability documents

LOGISTICS
Air / sea feasibility, importer of record and customs broker

SWISS ENTRY AND IMPORT RULES

Fresh plant products from non-EU origins are subject to Swiss plant-health and import rules. Before any shipment is committed, confirm eligibility, phytosanitary documentation and inspection, customs classification, tariff treatment and permits with the competent authorities and a licensed importer or customs broker.

COMMERCIAL NOTE

This is an introductory catalogue, not a binding offer. No price, minimum order, certification, grade, packing, season, volume or delivery date is fixed until confirmed in writing by the supplier. Duopole does not claim existing stock.
