COMPANY INTRODUCTION

From East African orchards to Swiss tables.

A partnership introduction for growers, exporters, importers, wholesalers and Swiss buyers.

KENYA → TANZANIA → SWITZERLAND

Duopole Fresh

Sourcing Nature's Best

KENYA + TANZANIA

SUPPLY CONNECTIONS FOR SWITZERLAND

Startup established January 2026

Lausanne, Switzerland

COMMISSION-LED · BUYER-LED

SOURCING NATURE'S BEST

An independent sourcing and market-development initiative connecting qualified East African avocado suppliers with Swiss-market opportunities.

GROWERS · EXPORTERS · IMPORTERS · WHOLESALERS · RETAIL & FOOD SERVICE

Built to connect, coordinate and grow

A Switzerland-based startup, founded in January 2026, connecting Kenyan and Tanzanian avocado supply with Swiss buyers.

AT A GLANCE

Commission
Business model

OUR ROLE

We develop commercial connections between potential suppliers and buyers, support product and requirement discussions, and help coordinate the early stages of sourcing conversations.

The operating model is deliberately **relationship-led and transparent**: every brief, status update and term is put in writing before a transaction proceeds.

SWISS DEMAND

24,300 t

of avocados imported into Switzerland in the 2024/25 marketing year, up 14% on the year before.

Source: CropGPT market report, Oct 2025

HOW WE WORK

Transparency

Clear product briefs, honest status updates and written terms before a transaction proceeds.

Buyer-led

Specifications, timing, volume and logistics are shaped around the buyer's actual requirements.

Quality first

Supplier capability, maturity, traceability and export readiness are confirmed for each deal.

OUR POSITIONING

Duopole is an **independent sourcing and market-development intermediary**. It is not presented as a farm owner, established exporter, Swiss importer of record, or operator of its own cold-chain facilities.

Kenya and Tanzania to Switzerland

We are building a verified supplier network in East African avocado regions and matching offers to Swiss buyer requirements.

KENYA

FARM / EXPORTER LEADS

TARGET RESEARCH AREAS

- Murang'a
- Kiambu
- Nyeri
- Meru
- Embu
- Other zones

Export readiness and current season status are checked with each supplier.

TANZANIA

FARM / EXPORTER LEADS

TARGET RESEARCH AREAS

- Njombe
- Mbeya / Rungwe
- Iringa
- Songwe
- Kilimanjaro / Siha
- Other zones

Availability is supplier-specific and confirmed case by case.

SWITZERLAND · BUYER MARKET

Importers, wholesalers, retail suppliers and food-service buyers – each requirement translated into a clear product brief.

HOW WE ASSESS AN OPPORTUNITY

01 Supplier identity

Business registration, export authority and representative details are verified.

02 Product & maturity

Variety, grade, sizes, maturity, traceability and packhouse capability are documented.

03 Route & timing

Season windows, transit options, handling and Swiss entry requirements are checked before commitment.

From enquiry to a clearer transaction

We structure the journey from a buyer's requirements to a credible supplier conversation, with due diligence at each stage.

Supplier discovery

Research potential farms, grower groups, packhouses and exporters; collect basic company and capability information.

Buyer development

Identify relevant importers, wholesalers, retail suppliers and food-service buyers; translate demand into a product brief.

Commercial introductions

Bring appropriate parties together and help maintain clear, professional communication on the opportunity.

Coordination support

Support specification exchange, quotation follow-up, document checklists and next-step coordination.

A PRACTICAL TRANSACTION PATH

1. **Brief** — Buyer needs
2. **Match** — Supplier fit
3. **Verify** — Documents
4. **Quote** — Commercials
5. **Agree** — In writing

Commission-based model

Fees or commissions are **agreed in writing before work begins**. Each agreement defines:

- Triggering event
- Calculation base
- Payment timing
- Repeat-order treatment
- Territory
- Duration
- Exclusivity (if any)
- Termination conditions

Clear terms. Verified information.

We confirm availability, documentation and commercial terms rather than treating them as promises to assume.

BEFORE A PRODUCT OFFER IS SHARED

- Supplier identity and authority to sell / export checked
- Variety, origin, grade, size, packing and availability confirmed
- Indicative volumes, minimum order and price validity documented
- Traceability, inspections and certificates requested as applicable
- Freight route, delivery terms, insurance and responsibility clarified

BEFORE SWISS DELIVERY

- Swiss customs and tariff treatment checked with the importer / broker
- Plant-health rules confirmed with the competent authority
- Food safety, pesticide-residue and buyer audit requirements confirmed
- Importer of record named; customs and document duties allocated
- Written contract and payment terms agreed before dispatch

IMPORTANT SCOPE NOTE

This profile describes Duopole's intended sourcing and market-development activity. It does not represent that Duopole already has confirmed supply contracts, confirmed buyers, export licences, organic or GlobalG.A.P. certifications, owned stock, guaranteed volumes, fixed prices, or its own warehousing / cold-chain operations.

LET'S DISCUSS A SOURCING OPPORTUNITY
